

Extension Activity 2018-19

Traffic awareness program

A Traffic awareness program was conducted in the college auditorium on 25th July 2018-at 11 am by an inspector of Police Department was attended by all the students of under graduation.

The gist of the awareness program was that -With so much traffic on the country's road, the authorities often face immense difficulties in maintaining law and order.

The most important requirements are that one must have a valid registration certificate, carry all important documents while driving, follow all driving regulations and buy insurance policy and keep it active at all times.

Traffic signs should be followed along with proper road etiquette.

We have the following traffic rules in India.

- Do not drink and drive. As drunken driving would impair our judgement while driving. It is always good to have a sober person drive
- Always carry a valid insurance policy. As insurance is meant to protect others who might be affected by accidents caused by our negligence or incompetence.
- Wear a Seat Belt, Helmet while driving car/bike.
- Don't use a mobile phone while driving. In particular, with two-wheeler driver, the precarious nature of driving while speaking on the phone puts life at great risk.
- Don't over speed.
- Do not ignore the red signal. Also be aware not to cross the pedestrian line when the red light turns on. Jumping a red light, we should stop right when the amber sign shows up.

The awareness program was informative and made the students understand the consequences of not adhering to the rules made for.

The awareness program ended with vote of thank and a sapling was presented to the Inspector of Police Department.

SWACH BHARATH (HARITHAHARAM)

A program on Haritha haram was conducted in the college premises on 13th August, 2018.

The chief guests spoke about CHETLA RAMAIAH... tree conservationist, who sold his land to buy more saplings and seeds to protect nature and in pursuit of his mission has read umpteen number of books on trees and the process of planting tree.

Quoting the example of CHETLA RAMAIAH students were asked to plant trees at home in their surroundings, gift saplings on every good occasion, encourage terrace gardening, protect the plants by watering at regular intervals, fencing or guarding of plants, providing organic manure. Benefits of Haritha haram is known to everyone who is educated but what needs to be done is persistent action. Advantages of Haritha haram quoted were-decreasing global warming, regulate temperature, reduce pollution level, enhancement of wildlife and biodiversity.

The students and faculty members of the college gifted saplings to each other. The chief guest was also gifted sapling at the end of the program.

GENDER SENSITIZATION

A session on gender sensitization was held in the college auditorium on 13th Sept.2018 at 11.00am was attended by all the students and faculty members of under graduation. The Speaker for the session was Mrs.CHA.Padamaja, Addl.Director,Public Health and safety.

The session was conducted to make the students to avoid discrimination by understanding and accepting the difference between men and women. The session fostered respect and compassion regardless of difference. This session made student understand how gender plays a role in life and also to recognize privilege and discrimination around gender especially woman. The session made students aware of gender equality and the need to eliminate gender discrimination. The gender sensitization paved a

way for women empowerment and also at times organize themselves for collective action against discriminatory practices. Gender sensitization can be achieved through various means, which includes education, training and awareness -raising campaigns. The purpose of the seminar was to promote gender equality and create a world where all individuals have equal opportunities to success.

The session concluded with vote of thanks by a student of final year.

WORLD OXYGEN DAY

In the occasion of world oxygen day on 22nd October ,2018 a free distribution camp was organized in the college premises in collaboration with Lions charitable trust, under the guidance of LION Mr. Surendra Luniya (Honorable Secretary). The students and faculty members attended and the assisted the free distribution camp.

As a part of the free distribution camp oxygen cylinders with technical support were provided to patients and also wheelchairs to the physically challenged persons were distributed. This free distribution camp made a profound impact by providing assistance during the times of distress of the needy. All the beneficiaries thanked the organization and the student volunteers for their services and co-operation during the free distribution camp.

PROGRAM ON KANTI VELUGU

The kanti velugu program was conducted in the college premises on 19th December 2018 at 10.00 am. All the students, faculty members and the general public of

Chaderghatt locality came to avail the services of the kanti velugu program. As the object of the program is to make blindness-free Telangana, a medical team assisted the kanti velugu program, many were screened and spectacles and medicines were also provided being a part of the program. This program proved to provide healthcare to every citizen.

The program was successful to a very large extent as more and more public availed the service of kanti velugu. The kanti velugu program began in the morning 10.00 am and went up to evening 5.30 pm.

HEALTH CAMP IN COLLABORATION WITH LION'S CLUB (21ST SEPT. 2018)

To advance community health and meet the continued demand for blood supplies, a health camp and blood donation drive were held at RG Kedia college on 21st September 2018. 10 Faculties and 40 students organized the event were in Participants from a variety of healthcare organizations, volunteers, and members of the neighborhood worked together to organize the event. The main events and results of the health camp and blood drive are highlighted in this report.

Health Camp: The objective of the health camp was to give participants access to free medical exams, consultations, and health awareness programmes. The following were among its activities:

Results and Impact:

The blood donation drive and health camp produced noteworthy results and had a beneficial influence on the neighborhood. Important details consist of:

Health Assessment: Many people had check-ups and discussions with doctors, allowing for the early identification and treatment of health concerns. Insights into participants' health state were valuable, and advice on how to live healthier lives was given.

Health Education: Participants in the health awareness program learned about a variety of health-related topics, enabling them to make better decisions and lead healthier lives.

Donation of Blood: A significant amount of blood units was collected during the blood drive, bolstering the stock of the neighborhood blood bank. Patient needs for blood transfusions and emergency care will be met both now and in the future thanks to this.
