**A Session on Career Counselling by FUEL Organization**

A career counselling session was held on 7-7-2021 online by

Mr .David FUEL Coordinator for our college students through zoom platform.

The session was about the availability of various jobs in govt sectors of which most of the students are not aware. The sessions throw light on preparation required and the common syllabus of various govt jobs apart from state and banking sector. The focused on going for other central govt jobs available for the students and start preparing at college level so as to get placed immediately after graduation. The session was useful to the students to make use of idle time during their college days.
