REPORT ON INDUSTRIAL VISIT

NATIONAL REMOTE SENSING CENTRE(NRSC)

Objective of the Visit:

The main objective of the visit was to acquaint the students with the functioning of NRSC, its various divisions and the technologies involved in remote sensing. This visit is for the benefit of students to gain practical knowledge about the applications and advancements in the field of remote sensing.

A Industrial visit to the National Remote Sensing Center(NRSC) in Hyderabad was organized by R.G.Kedia College of Commerce on 29-08-2023 for the students MBA, MCA and BBA in collaboration with Hyderabad Management Association (HMA). The NRSC, a premier organization under the Indian Space Research Organization (ISRO), plays a vital role in Earth observation and satellite communication.

The students started from College at 10.00am along with the faculty members, Mrs Syeda Bassar Unnisa Begum, Ms Shabana, Dr. Surender, Mr. Rushi, Ms Bhagya Lakshmi, Ms Mounika M were the coordinators from PG and UG Departments. Totally 96 students along with 6 coordinators went for the visit.

HMA President, Faculty and students at the college entrance before boarding the bus

An orientation was given on remote sensing, providing an understanding of the technology, its principles, and the applications in environmental monitoring, agriculture, disaster management, and urban planning.

NRSC Facilities

Students were taken on a guided tour of the NRSC campus, where they got an opportunity to observe the operational facilities, data processing centres, satellite ground stations, and laboratories equipped with advanced remote sensing instruments. This included the Satellite Data Reception Stations and the Data Processing and Archival Centers.

Interaction with Experts

During the visit, students had the privilege of interacting with experts from various divisions of NRSC. They shared their valuable insights into the on-going research projects, data analysis techniques, and future advancements in remote sensing technology.

Live demonstrations were conducted to showcase the process of satellite data acquisition, processing, and analysis. Students were able to witness the interpretation of satellite imagery and how it aids in mapping, monitoring, and planning of land resources.

Ms.MounikaM&MsG.Bhagya Lakshmi faculty with students

Success Stories

The students were presented with case studies and success stories where remote sensing was employed to solve real-world problems, such as assessing the impact of deforestation, monitoring urban growth, and aiding disaster response and management.

Conclusion

The industrial visit to the National Remote Sensing Centre in Hyderabad was an enriching experience for the students. They gained practical knowledge, observed cutting-edge technologies, and understood the application of remote sensing in various domains. This visit not only broadened their understanding of remote sensing but also motivated them to explore further possibilities in the field. Overall, it was a valuable educational experience that will benefit the students in their future endeavours.

Outcome :By witnessing the activities and infrastructure of NRSC, the students were able to understand the practical aspects of remote sensing and its applications in various sectors.

A Report on Health & Hygiene

An orientation session on Health and Hygiene was organized in the college auditorium on 5th October 2023 at 11 am. The motto of the program was to educate and empower girls about menstruation, focusing on hygiene, dispelling myths, and fostering open dialogue. Ms.Mounika , Department of Commerce welcomed the Chief Guest Dr. P. Apurva, Gynecologists, Kiran Hospitals,L.B.Nagar

Ms. Mounika welcoming the Prof. VandanaSamba, Director-Research, Dr. P. Apurva Gynecologist and Prof. R. Nageswar Rao ,Director -General.(from left to right)

The purpose of this event was to equip and educate young girls on how to appropriately manage their menstrual cycle. Girls students were the target audience for the program, which was organized in the college

Objective of the Orientation Session: The primary objective of the orientation session was to educate girls about good menstrual habits and to encourage them to follow them.

Following are the precise objectives:

- Educate girls on menstruation's biological processes.
- Encourage good hygiene during your menstrual period.
- Eliminate misconceptions and false beliefs about menstruation.
- Promote open dialogue about menstruation to mitigate taboo.
- Give instructions on how to dispose of menstrual hygiene items properly.

Dr.P. Apurva ,addressing the students

Participants in the orientation session received in-depth instructions on how to use sanitary pads correctly and how to properly dispose of them in order to maintain hygiene and environmental sustainability.

PowerPoint presentation during the session helped to reinforce these guidelines for using sanitary pads and the disposal procedure. To protect their menstrual hygiene and support environmental sustainability, participants were urged to adopt such actions.

Participants actively participated in the session by posing queries, expressing their worries, and taking part in discussions. Girls felt motivated to speak their opinions and learn from one another in a relaxed setting as a result of the interactive nature of the workshop.

The objectives of the orientation program on menstrual hygiene and health for females were successfully met. In addition to lowering the stigma attached to menstruation, it was crucial in empowering young girls with the knowledge and abilities to appropriately manage their menstrual health.

At the end of the session felicitation was done by Prof .Vandana Samba &Mrs .Kamlesh Mittal ,Later on proposed vote of thanks.

The 5-day Management Development Program (MDP) on Technopreneurship for Sustainable Development was conducted with the objective of equipping participants with the knowledge

and skills necessary to integrate technology and entrepreneurship for fostering sustainable development. The program aimed to bridge the gap between technological innovation and entrepreneurial initiatives to address contemporary societal and environmental challenges.

1. The MDP covered a comprehensive range of topics which includes :

- Technopreneurship Fundamentals
- Sustainable Development Goals(SDGs)
- Innovation & Technology Trends.
- Business Model Innovation .
- Financing Sustainable Ventures.
- Social and Environmental Impact Assessment
- Legal and Ethical Considerations.
- Case studies & Best practices

2. Key Take aways

1. **Technopreneurship Strategies** :Participants gained insights into formulating effective technopreneurship strategies by leveraging emerging technologies to create sustainable business models. The program emphasized the importance of aligning these strategies with global and local sustainability goals
2. **Sustainable Development Integration**: The MDP stressed the need for technopreneurs to embed sustainability principles into their ventures. Participants learned how technology could be a catalyst for positive social and environmental impact, contributing to the achievement of SDGs.
3. **Innovation & Creativity**: The program highlighted the role of innovation and creative thinking in technopreneurial endeavours. Attendees engaged in practical exercises and workshops that encouraged ideation and problem-solving through technology-driven solutions.
4. **Financing for Sustainable Ventures**: Understanding the financial landscape for sustainable ventures was a crucial aspect of the program. Participants explored various funding models, including impact investing, grants, and partnerships to support their technopreneurial initiatives.
5. **Ethical and Legal Considerations**: The MDP delved into the ethical and legal dimensions of technopreneurship, emphasizing responsible innovation and adherence to regulatory frameworks. This was crucial in ensuring the long-term success and sustainability of ventures.

6. Case Studies & Best Practices :Real-world case studies and examples of successful technopreneurial ventures were presented and analyzed. This provided participants with practical insights into overcoming challenges and replicating successful models in their respective domains.

7 .Networking Opportunities :The program facilitated networking among participants, guest speakers, and industry experts. Interactive sessions, group activities, and panel discussions allowed for the exchange of ideas, experiences, and potential collaborations.

8. Conclusion :The 5-day MDP on Technopreneurship for Sustainable Development proved to be a valuable platform for participants to enhance their knowledge, skills, and perspectives. By fostering the integration of technology and entrepreneurship with a focus on sustainability, the program aimed to contribute to the creation of a more resilient and inclusive economy.

9.Recommendations for Future programs:

Include more hands-on activities and workshops for practical skill development.

Incorporate updates on the latest technological trends and their potential impact on sustainable development.

Foster a platform for ongoing collaboration and knowledge-sharing among participants post-program.

Overall, the MDP successfully empowered participants to become effective technopreneurs capable of driving positive change and contributing to sustainable development
